

Diversity Statement

This statement was approved by the Board of Trustees on Oct. 24, 2008

At KU Endowment, we recognize we can better achieve our mission of building a greater University of Kansas by embracing diversity.

We are committed to assembling a Board of Trustees, volunteers, a staff and a pool of donors that reflect the demographics of the KU student body and alumni. Further, we are committed to partnering with donors to encourage support to assist the university in achieving its diversity goals.

True to our core values, we seek to exemplify a people-centered approach that celebrates diversity as a vital strength. We will demonstrate our commitment to diversity by actively recruiting and retaining a diverse group of people to guide our present and shape our future.
